

**TECHNICAL DELIVERY CONDITIONS METAL TRADE COMAX, a.s.**

Profile centre  
(effective from 01.07.2018)

Deliveries of rolled sections is governed by the applicable European and Czech technical standards. If necessary, the buyer can arrange with the seller, the delivery profile by other mutually acceptable standards. Check specified parameters are made on the basis of technical documentation verified by the customer.

**REINFORCEMENT SECTIONS**

ISO 2768-1	General tolerances - Part 1: Tolerances for linear and angular dimensions without individual tolerance indications
EN 10162	Cold rolled steel sections – Technical delivery conditions – Dimensional and cross-sectional tolerances
RAL-GZ 716	Quality and Test Specifications for Components and Procedures, Technical Annex Section H Reinforcements

**WELDED PROFILES**

EN 10219-1	Cold formed welded structural hollow section of non-alloy and fine grain steels – Part 1: Technical DC
EN 10219-2	Cold formed welded structural hollow section of non-alloy and fine grain steels – Part 2: Tolerances, dimensions and sectional properties
EN 10305-3	Steel tubes for precision applications-Technical delivery conditions Part 3: Welded cold sized tubes
EN 10305-5	Steel tubes for precision applications-Technical delivery conditions Part 5: Welded cold sized square and rectangular tubes

**PLASTERBOARD PROFILES**

EN 14195	Metal framing components for gypsum plasterboard systems - Definitions, requirements and test methods
DIN 18182 – Part 1	Accessories for use with gypsum plasterboards – Parts 1: Steel plate sections

For ordering raw materials for the profile based on the following standards:

**INPUT MATERIAL**

EN 10025	Hot rolled products of structural steels - Part 1: General technical delivery conditions
EN 10346	Continuously hot-dip coated steel flat products - Technical delivery conditions
EN 10143	Continuously hot-dip coated steel sheet and strip - Tolerances on dimensions and shape
EN 10140	Cold rolled narrow steel strip - Tolerances on dimensions and shape
EN 10130	Cold rolled low carbon steel flat products for cold forming – Technical delivery condition
EN 10131	Cold rolled uncoated zinc or zinc-nickel electrolytically coated low carbon and high yield strength Steel flat products for cold forming – Tolerances on dimensions and shape

**PACKING**

Packaging is done based on customer requirements.

The Company is registered in the Companies Register kept by the Municipal Court in Prague, section B, enclosure 11701. Representative: Ing. Marián Manda, CSc. - Managing Director.
